ILLUSTRATION & DESIGN, INC.

## ***Sam Bass Designs "policemuseum.org" Paint Scheme For Jeff Gordon***

*Sam was commissioned by DuPont to create a special paint scheme for Jeff Gordon's #24 Chevrolet, which pays tribute to our nation's first National Law Enforcement Museum, which will be located in Washington, D.C. The official groundbreaking for the museum will take place on October 14, 2010.*

*Bass maintained the integrity of the #24 "FireStorm" paint scheme while incorporating a new color palette and graphics. His use of black and silver for the design is another subtle mark of respect for law enforcement officers.*

*Working with Jeff Gordon and his sponsors since 1992, Bass has created all of Gordon's primary paint schemes and many of the special designs carried on the #24 Chevrolet.*
